

Issue 1 May 2013

Newsletter

Hello and welcome to our first issue of Juru Enterprises Limited Newsletter. It has been a long time coming but we have finally got there.

As this is our first issue of the Newsletter I would like to congratulate the past and present Board of Directors for their time and commitment over the last eleven months and for the making of some very tough decisions along the way. It has been a very bumpy road over the last eleven months and a huge learning experience since the Corporation started business.

The members of the Board of Directors over the last eleven months have been as follows, Chairperson: Margaret Smallwood, Vice-Chair: Raymond Gaston, Secretary: Jennifer Butler, and Board Members, Tracey Lampton, Gary Prior, Burt Doolan, and Andrew Morrell. Over the last eleven months we have had two of the original Board step down and replaced. Those being Burt Doolan and Andrew Morrell being replaced by Kevin Aldridge and David Morrell respectively.

Also a huge thank you to Lynette Klukas who the Board has had to hire as the Corporation's Book Keeper and she has been a vital part of the Corporation getting on its feet.

Since November 2012 the Board of Directors have been starting to implement the Indigenous Land Use Agreement that we have with the Coordinator General and North

Queensland Bulk Ports.

Part of the implementation of the ILUA has been to undertake due diligence and inspections of investment properties and the purchases of two properties have been started as we go to press. The properties are situated in Mt Nutt Rd Bowen with one being a three bedroom house and the other being a four bedroom house.

Other parts of the ILUA that have been started to be implemented are the Workforce Resource Plan and the Wetlands Project.

The Wetlands Project has been started by the formulation of a Wetlands Project Plan which was accepted by the Board of Directors in December 2012 as a live document to allow for changes to be made when needed.

Also the Board of Directors passed a WRP Plan in January 2013 as a live document to allow for updates and changes to be made into the future.

105 Mt Nutt Rd Property

The Workforce Resource Plan has been started and implemented by the mailing of letters to our members, to which we had a wonderful response from our members and their family members who responded to the Workforce Resource Plan questionnaire and sent in their Resume's.

The next steps that the Board of Directors need to undertake are the selection and employment of personnel to undertake work in the Wetlands Project and the selection and purchase of the equipment required for the work to be undertaken.

Over the next two months the Board of Directors will be working closely with the Co-ordinator General and North Queensland Bulk Ports and the Office Coordinator, to implement the start of works in the Wetlands Project which is the pilot program for not only Juru Enterprises but also for NQBP and the CG.

105A Mt Nutt Rd Property

This will enable our workers to look after and improve the wetlands at Abbot Point which are classed as an Important Wetland of Australia within the Significant Wetlands of Australia Directory. It will be a massive job that will include the removal of noxious weeds and feral animals. Also the removal of a Bund wall that was constructed in the early 1980,s.

Board of Directors Jennifer Butler, Gary Prior, Kevin Aldridge, Margaret Smallwood, Raymond Gaston and Office Coordinator Andrew Morrell at the inspection of properties purchased at 105 and 105A Mt Nutt Rd Bowen.

The Board of Directors would like to extend an invitation to interested persons to take part in a competition to design a company logo for our corporation. All it needs to include is the words Juru Enterprises Ltd. On the front of the news letter is an example of a proposed logo. The prize for the winning logo picked by the board will be a four hundred dollar gift voucher from an electrical store such as Harvey Normans or the like.

The logo will become the official logo of the company and will be used on all vehicles, letter heads, uniforms and of course the news letter so if the members of our corporation have any artists or upcoming artists they are welcome to submit a design. The Board of Directors will make a decision on the winning entry at the last Board meeting of the financial

year in June. Entries can be posted to PO Box 748 Bowen 4805. Please don't forget to include the artist's name and where needed, age if it is one of your young ones.

Juru Enterprises Limited will be holding our first AGM on the 13th July 2013 at the Bowen PCYC. The first two members of the Board that will be stepping down will be Gary Prior and Tracey Lampton and their respected families will need to appoint their new Board Director. Please note that there will be no reimbursements or payments for travel, accommodation or meals for the AGM.

Over the next few issues of the Newsletter we will be incorporating some photos of the Abbot Point area for those who have not seen the area in which we will be looking after. I hope you enjoy the photos.

Looking across the wetlands to Abbot Point Bulkcoal Terminal from near the shed on western side of Wetland. In the distance are one tree hill on the left and Bald Hills just right of centre of photo. Just right of that are the stacker/reclaimers at Abbot Point Bulkcoal. This is part of the area that we will be looking after as part of the Wetlands Project.
